Explanation of symbols used :—B.—Births ; B.R.—Birth Rate ; C.—Cholera ; S.—Smallpox ; P.—Plague ; F.—Fever ; D.D.—Dysentery and Diarrhoea ; R. D.—Respiratory Diseases ; M.D.—Maternal Deaths ; D.R.—Death Rate ; I.D.—Infantile Deaths (included in total)

## REMARKS

The figures of births and deaths shown in this statement for week ending the 10th December 1955 relate to 213 towns with an estimated population of 29,668 thousands. The total number of towns is 313 and their population is 40,934 thousands. Thus 68% of the total number of towns representing 72% of the total population is covered in this statement. The number of births and deaths recorded in these towns were 21,712 and 7,153 representing birth and death rates of 38.1 and 12.5 per thousand of population respectively.

(a) *States (Part A and C).*—The data here relate to 176 towns with an estimated population of 24,036 thousands. Information about Ajmer, Madhya Pradesh and West Bengal could not be included. The total number of towns is 252 and their population is 32,572 thousands. Thus 70% of the total number of towns representing 74% of the total population is covered. The

number of births and deaths recorded in these towns were 18,755 and 6,175 representing birth rates and death rates of 40.6 and 13.4 per thousand of population respectively. The table at the end gives the position by States.

No town recorded a high death rate of 50 or over per thousand of population

(b) *States (Part B).*—The data here relate to 37 towns with an estimated population of 5,632 thousands. The total number of towns is 61 and their population is 8,362 thousands. Thus 61% of the total number of towns representing 67% of the total population is covered. The number of births and deaths recorded in these towns were 2,957 and 978 representing birth and death rates of 27.3 and 9.0 per thousand of population respectively.

No town recorded a high death rate of 50 or over per thousand of population.
